

CARRA SANTOS – Mette Ltd

For almost ten years, designer, educator and entrepreneur Carra Santos has been at the intersection of food and design, applying her design skills and methodologies to change-making in food-related industry.

Based in UK and Ireland, she has worked with cross-sector industry leaders and brands including 100% Design, British Council, Formica Group, N2O, The Flava People and Quorn Foods, with projects named 'Most Popular' by 25,000 at LDF, and featured internationally from NY Times and Wired Magazine to Icon and Wallpaper*.

Independently, and as co-owner of innovation/design studio, Mette, her IP knowledge, supported by ACID, has allowed her to grow her business and profile through both confident commercialisation of her own works, and fair commission of others'. Crucially, she advocates a transparent and logical IP approach among her network of freelancers, mentees and clients, propagating a fair mindset, and continually safeguarding and adding value to the design industry as a whole.
